Beirut, Lebanon

## SUMMARY

Frontend-focused Software Developer with strong expertise in React.js and TypeScript, building scalable applications for large educational platforms. Experienced in API integration, performance optimization, and responsive UI development. Also familiar with .NET backend and AI, with hands-on experience building small AI applications.

## EXPERIENCE

### Frontend Developer (React | TypeScript) | .NET & AI Exposure

#### Cts - Creative Technology Solution

09/2023 - Present | Hamra

- Building frontend development of large-scale educational platforms used by universities.
- Building scalable React + TypeScript applications with clean architecture.
- Improving performance, responsiveness, and UX across multiple devices.
- Contributing to production systems used by real users in university environments.
- Collaborating in agile teams with a focus on code quality and maintainability.
- Working with .NET backend services for API integration and supporting full-stack development.

### Software Developer

#### Eurisko Mobility

11/2022 - 09/2023 | Adma

- Design, develop, and maintain high-quality software applications using React Native and React JS.
- Participate in the full software development lifecycle including requirement analysis, design, development, testing, and deployment.
- Ensure the performance, quality, and responsiveness of applications.
- Continuously improve skills and knowledge through training and self-study.
- Experience working in agile methodologies and familiarity with tools such as JIRA.

### Front End Developer

#### Globalistic Tech SAL Offshore

02/2021 - 11/2022 | Dbaye, Lebanon

- Created progressive web apps for web and mobile usage.
- Optimized existing web applications for maximum speed.
- Designed mobile-based features.

## EDUCATION

### Bachelor in Computer Science

#### Lebanese International University

2015 - 2019

## TRAINING / COURSES

### Microsoft Azure AI Engineer (AI-102).

### Frontend Advanced Development (React & TypeScript).

### .NET Backend Experience (API Integration & Support)

## SKILLS

React js	TypeScript	React Native
Tailwind	Bootstrap	CSS .Net
